

POLVERE DI SOGNI SUMMER 2017

**Radiant as a summer morning: on preview at Baselworld 2017,
the Polvere di Sogni collection sparkles with new colours.**

The first Pesavento collection dedicated to summer finds its inspiration in the morning hues. A soft pink sky, which becomes even softer, and then takes on a pale blue tinge. Water reflections and the thousand of lights that warm up the pure sand. The new colour offer was conceived to give an extra elegant and refined touch to the outfits of the season, ensuring perfection at any time of day.

POLVERE DI SOGNI SUMMER

The summer collection is like diving in refreshing pastel notes. The delicate pink, sand and pale blue colours of Polvere di Sogni, bring out the best from the minimal shapes of the rings, and the elegant sautoirs. To wear as a single refined item; or as a composition of two or three nuances.
