

25th DREAM PESAVENTO *Art expressions*

PESAVENTO, 25 years of jewels and dreams

2017 is a special year for Pesavento that celebrates twenty-five years of business in the jewellery world. It is a milestone achieved with a touch of pride and a lot of emotion for a result achieved each day thanks to the company's belief in the beauty of dreams.

In twenty-five years, Pesavento has cultivated visions of beauty, harmony, and design while engaging in new paths of contemporary jewellery. Since 1992, Chiara Carli and Marino Pesavento, together with their close knit team have shaped a passionate vision of precious design, awarded with growing success thanks to a recognisable identity and the ability to understand the needs of the market in advance.

The key to the longevity of the brand is to know how to interpret the dreams of women, make them their own and transform them into icon jewels capable of transmitting emotions and astonishment. To enhance design and creativity, Pesavento favoured silver because it is a precious material that makes it easy to play with volumes and shapes, ensuring a very high level of research and innovation together with the excellent craftsmanship of Made in Italy objects, all created within the company. From Vicenza, the city of Palladio and the capital of harmonious beauty, the Pesavento jewels are now present in the shopping districts of more than 60 countries throughout the world.

"We have cultivated a lot of dreams in twenty-five years and now it's time to celebrate their accomplishment. We want to share this milestone with everyone who has taken part in the success of our brand"

-- Chiara Carli and Marino Pesavento
